Although you can of course purchase a Windows 10 license (which costs \$119 99 from Microsoft) the only advantage of activating it is that it allows you to customize the look for Windows 10 such as the desktop, lock screen, styling, removal of watermarks etc.. Unlike Apple's Boot Camp, Parallels let you run Windows and its applications side by side with the Mac OS at the same time, without restarting your computer.

For most Mac users that just want to install Windows only programs or games on macOS, this is not necessary and so you can enjoy Windows 10 for free.. Parallel Program For MacThe is to install it in a virtual machine A virtual machine allows you to run Windows and macOS at the same time so that you can switch between the two at any moment with just one click.. Microsoft doesn't actually require users to activate Windows 10 with a product key unless you want to customize the look of it.. Shut it down if it's running Right-click on the Parallels Desktop icon in the Dock, then select Control Center (Virtual Machines list in older versions).. Here we show you how you can easily get Windows 10 on your Mac for free in little more than 10 minutes. [pes 2009 jelen super liga patch v2.0](#)
